

RZ Codex 400 Universal Power Cleaner

Water-based, powerful cleaner for household, garage and construction site

Range of application:

Removes grease, oil and soot residues rapidly and powerfully on the construction site, in the household and in the garage. For all washable surfaces of plastic, glass, stone, ceramics and metal. Especially suitable for the cleaning of ovens, microwaves, ceramic areas, hot plates, garden grills and much more. Not suitable for acrylic glass.

Suitable for:

- ▶ All washable surfaces in kitchen, garage, garden and on the construction site

Product advantages/properties:

- ▶ Powerful dirt and grease remover
- ▶ Wide ranges of application
- ▶ Fast-acting
- ▶ For all washable surfaces

Technical data :

Container type	Bottle (PE)
Delivery size	500 ml
Shelf life	unlimited
Colour	transparent
Processing temp.	18 - 30 C°
Passable	After drying
pH-value	Approx. 11
Giscode	GU 80

Preparation:

Remove loose dirt from the surface before the employment of the Codex RZ 400 Universal Power Cleaner. Apply on sample surface before large-area employment. Do not spray onto hot surfaces.

Processing | Maintenance Cleaning:

1. Spray onto soiling and stains.
2. Allow to act for a short time.
3. After adequate contact period, wipe off with absorbent cloth.

Range: approx. 50 applications

Important references:

- ▶ Stable in original container with storage under uniform conditions for an unlimited period.
- ▶ It is important to protect against frost or strongly fluctuating temperatures. Tightly close off containers already opened.
- ▶ Optimal processing at low air humidity (approx. 65%) and normal room temperatures (18 - 30 degrees centigrade).
- ▶ Do not spray onto hot surfaces
- ▶ Do not employ on acrylic glass.
- ▶ In case of doubt, always carry out a sample test cleaning at an inconspicuous location.

Work and environment protection :

Irritant effect. Non-flammable. During the processing the utilization of gloves and a skin protection cream is basically to be recommended. Absolutely considering the security pieces of advice listed on the bottle.

Waste disposal :

Do not allow to enter undiluted into the sewage system, into water bodies or into the soil. Rinse out residue-emptied containers with a little water and dispose of as recycling-capable containers, in accordance with the local / official directives (DSD). The specifications are based on our experience and careful investigations. The quality of your work depends on professional construction site evaluation and product use by yourself. If in doubt, conduct a small sample test or obtain technical advice. The directions for use on the containers are to be strictly adhered to. With the issue of this product datasheet, all preceding product datasheets lose their validity
